MEGASUS BRIDGE MUSEUM

1. Enclosed, belatedly, is a cheque for £113.50 in payment for the magnificent model figures which you produced for this Museum. Forgive the delay but I have had some difficulty in obtaining the bank draft from the French authorities, a combination, believe it or not, of Bank Strikes and Elections.
2. May I once again say how indebted I am to you for the help you have given. I know well the French will also be very pleased when they receive the models. Major Geoffrey Norton is delivering them to Becouville on 21st May. There was some delay, as you may have heard to the planned construction schedule but the Museum now looks very well.

Thank you again,

27/5/74
